

## Quality Work Recommendation

Would you like a contractor that truly finishes the job?

Would you like a contractor that has integrity?

Would you like a contractor that never leaves a mess?

Brian Fuller has proven himself to us to be all the above. After having a handyman leave our kitchen renovation half done, poorly finished, and abscond with several hundred \$\$, I was skeptical of finding someone that I could trust, believe, and depend on to do a good job.

Brian Fuller gave us an estimate, suggested several ways to improve our plan for the renovation, and assured us he would leave our house, finished, clean, and professionally detailed, attending to all specifications we insisted on.

We definitely were not disappointed. Brian and his crew completed all facets of our renovation, in the time predicted, with quality workmanship, and under the estimated \$\$ amount. We did not have to do anything, except enjoy the finished product, which looks beautiful. We are so happy we went with the bid Brian gave us. It is exciting to know we CAN have a project turn out the way we want, within the budget we programmed, and with such a professional finished result. Our Kitchen and other smaller jobs we wanted accomplished were all completed. Absolutely nothing had to be redone.

Thank you Brian, for your professional manner, workmanship, and crew. We now know who will be remodeling the rest of our home.
